

LIFEBOAT AIR CYLINDERS

STANDARD LIFEBOAT AIR SOLUTION ↓

As part of our extensive cylinder range, Survitec offer a standard lifeboat air cylinder complete with the air regulator to ensure your lifeboat meets safety regulations. In addition to our cylinder, we can also offer the option to self fill the cylinder using our range of Bauer compressors used in conjunction with the range of hoses also available from Survitec.

To have a complete filling hose from the Bauer compressor to the cylinder with a 5/8" female thread, you will need the filling hose, adapter, connection stub and air nut, all of which are available from Survitec.

FEATURES

- 50 LITRE FILLED CYLINDER
- 200 BAR
- STANDARD FITTING FOR MANY TYPES OF LIFEBOATS
- WORKING PRESSURE ACCORDING TO BS5045 / DOT3AA
- LIFEBOAT CYLINDER REGULATOR CONFORMS TO EN2503
