TECHNICAL DATA

Capacity	6 L
Bracket	No
Discharge Range	3 m
Test Pressure	26 bar
Working Pressure	11.2 bar
Weight Empty	6 kg
Weight Full	12 kg
Hose Length	500 mm
Wheel Diameter	180 mm
Fire Rating	21A 75F
Operating Temperature Range	-20 °C to +60 °C

Instructions For Use

1. Pull out the safety pin by pulling the ring
2. Strike by pressing the handle
3. Press the spray gun lever and direct the jet at the base of the flames

Approvals

These fire extinguishers hold Bureau Veritas EC type examination certificate as per Module B of directive 2014/90/EU of the European Parliament (MED/3.43 Nozzles for deep fat cooking equipment fire extinguishing systems (automatic or manual type). (MED/3.2 Portable fire extinguishers)

This fire extinguishers complies with European testing EN 3-7 (2004) + A1 (2007)
EN 3-8 (2006) + AC (2007)
EN 3-10 (2009)

Pressurisation During Use

The internal cartridge discharges the propellant gas (CO₂), pressurises the reservoir and thus allows the water and its additive to be discharged. The interchangeability of this cartridge and its precise control by weighing means the extinguisher can be re-charged in situ, without being returned to the plant. Both preventive and corrective maintenance can therefore be carried out in optimum conditions.
