

WATER CARTRIDGE

FIRE EXTINGUISHER ↓

Our 9 L cartridge operated water extinguisher gets to the heart of fires with the specially designed lance giving you quicker fire fighting capabilities. Survitec's range of fire extinguishers offers you higher fire ratings, easier fire fighting capability and increased levels of user safety.

Our water portable fire extinguishers have a nozzle design that produce small individual droplets and not a jet. The droplets does not touch each other, which prevents electric current to be conducted. Because of this, they can be used on voltage up to 35kV with adequate training. In addition, these small droplets increase the energy absorption, making the extinguisher more efficient.
