

UTILITIES SURVIKIT BAG (USB)

A STANDARD SAFETY SOLUTION TAILORED
TO THE WATER UTILITIES ENVIRONMENT

The Utilities SurviKit Bag (USB) has been developed to specifically provide the water utilities industry a single standardised solution for all working at height activities. Survitec works with safety professionals and working at height trainers from within the water industry to understand the unique challenges and requirements of operators working at height, from general climbing to potential rescue scenarios. Composed of a variety of personal protection and height safety equipment, the USB uses recognised and trusted brands to ensure each user is working with the highest industry standard of protection. The USB is made of Tarpaulin water repellent material available in both black and orange and is an approved lifting bag with a certified safe working load of 25kg.

WORKING IN PARTNERSHIP WITH TRUSTED BRANDS

Survitec is an authorised distributor of for some of the World's leading brands.
