HEALTHCARE SOLUTIONS

SINGLE USE SOLUTIONS FOR ALL MEDICAL PERSONNEL

TRUSTED SAFETY AND SURVIVAL EXPERTISE

Every day frontline medical staff and emergency response personnel work in increasingly challenging environments, exposing them to potentially harmful substances. They rely on their protective equipment to not only help keep them safe, but enable them to do their job, typically for extended periods of time. Each environment brings a series of unique challenges, specific to the tasks carried out. This includes nurses and doctors working at risk of infection in a hospital or ambulance personnel entering a potential contamination scenario. Recent events have now broadened this requirement, with much stricter duty of care responsibilities now expected across all workplace environments.

Survitec is a world leading, global safety survival solutions provider. We have an intimate understanding of both the challenging environments people face and the equipment needed to help shield them from possible hazards. This has enabled us to turn our capability to respond to the growing need for workplace protection, through manufacturing and our fully qualified supply chain. This infrastructure enables us to rapidly respond to emerging solutions for employers, ensuring their obligations to safety is achieved, with security of supply from a leading UK safety and survival provider.

- Bespoke workplace protection solutions
- Security and continuity of supply through UK manufacturing
- Rapidly responding to changing risks and requirements
- World leading safety & survival capability
- Supporting customers, helping them meet their duty of care obligations

OUR MISSION IS TO ENSURE OUR CUSTOMERS OPERATE WITH THE MOST APPROPRIATE SAFETY AND SURVIVAL EQUIPMENT FOR THEIR PEOPLE AND THEIR CUSTOMERS

FULLY CERTIFIED MANUFACTURING FACILITIES

At Survitec, we partner with our customers to rapidly translate requirements from concept into full scale production. We provide specialist manufacturing support, delivering complex projects in highly regulated, safety and quality led environments. This demands closely managed processes and procedures, a skill we have developed from decades of manufacturing state-of-the-art military, aerospace, healthcare protection, and industrial survival equipment. Our facilities are compliance driven. We produce highly specialised products and engineering solutions that strictly adhere to international manufacturing and safety performance standards.

The Survitec flagship UK site is a proud local employer and hosts modern, unique and highly capable facilities that can accommodate our customer's requirements on a global basis.

MANUFACTURING OVERVIEW

- Large UK manufacturing facilities
- ISO 14001:2015, AS9100-D and ISO9001-2015 accreditation
- 250 employees
- Highly skilled design engineering capability, specialising in functional integrated garment development
- CE Certified Products & Equipment
- Tested and qualified to UK Healthcare standards

**PROUD SUPPLIER TO THE UK
GOVERNMENT FOR CRITICAL
HEALTHCARE PROTECTION
EQUIPMENT**

CAPABILITY OVERVIEW

The Survitec Healthcare Solutions portfolio offers a solution across multiple domains, from our isolation gowns to our customisable healthcare bags and specialist portable isolation stretcher. Working in collaboration with some of the world's leading manufacturers, our capabilities include:

- **Medical** – a protective means for frontline medical and first responder personnel to shield themselves from hazards
- **Workplace** – solutions to help keep groups of people safe and protected while in the workplace

- Tailored solutions for customers needs
- Flexible commercial options - sale, hire
- Services to help customers define their needs or requirements

Our products are available for sale, hire or for certain solutions, in a more comprehensive support package including site survey, risk assessment, installation and through-life service. We are committed to working with our customers to find the best solution for their needs.

THEIR REQUIREMENTS

MEDICAL

STERILE AND NON-STERILE SURGICAL GOWNS

A SINGLE USE SOLUTION FOR MEDICAL PERSONNEL

The Survitec Surgical Gown range has been designed for medical and frontline personnel interacting first hand with contaminated items and persons. Constructed from high quality materials, the Gowns are waterproof to assist with comfortability and are anti-static and fire resistant while remaining latex free. The gowns feature elasticated cuffs and ties at the neck and waist with a wraparound design and long sleeve protection. The Survitec Surgical Gowns have been independently tested for 'Aqueous Bacterial Barrier Testing' and are impervious to fluids which provides an extremely effective barrier against cross infection. Supplied nonsterile in dispenser boxes, each gown is clean packed and individually wrapped.

- Sterilised and Non Sterilised Standard Surgical gowns available
- Disposable and fluid repellent solution for all medical scenarios
- High quality and durable materials for longevity during operations
- Covers the torso, fits comfortably over the body and protects skin with long sleeves.
- Certified to EN 13795:2019 and ISO 16604:2015

HEALTHCARE SURVIKIT BAGS

BESPOKE KITTED SOLUTIONS

The Healthcare SurviKit Bag is a single source solution composed of personal protection equipment designed for frontline and healthcare workers. Survitec understands the safety equipment and measures required to work during uncertain times and has developed the Healthcare SurvitecKit Bag to assist in appropriately equipping employees for their particular working environment. Composed of a variety of personal protection equipment, the bag uses recognised and trusted brands to ensure each wearer is protected to the highest safety standards. The bags are made of water repellent material and are available in black. Includes a range of products including hand sanitiser, disposable protective gloves, face masks, safety glasses and more. Available as a standard kit or create your own bespoke package.

- Complete suite of personal protection equipment
- Assists in kitting employees for their particular working environment
- Durable, water repellent material

WORKPLACE

TOUCH FREE SANITISER STATION

DESIGNED AND MANUFACTURED FOR INDUSTRIAL DISPENSER REQUIREMENTS

The Touch Free Sanister Station has been designed to combat immediate bacterial threats in the workplace. The fully automatic dispenser is battery operated and detects hand movements for dispensing, eliminating risk of contamination to the unit. Constructed of polished stainless steel, the dispensers are compatible to hold liquid soap, anti-bacterial gel or 70% alcohol hand sanitiser. Universal design to easily replace liquid with any 5-litre standard bottle. Available in a variety of stationary and moving units for kitchen, workplace and retail environments.

- Zero touch solution
- Practical automatic operation to reduce contamination
- Bulk fill design utilising 5 litre standard bottles
- Ideal for areas where soap and water are not available
- Easy and effective hand sanitising option

SPECIALIST ISOLATION MEDPOD

A CONFINED AND CONTAINED SOLUTION

The MedPod is a specialist man portable stretcher used for extraction and treatment of a casualty that has been injured or contaminated. It is designed to provide a negative/positive air pressure environment when connected to a unique software programmed air filter blower unit. This combination protects emergency responders from off-gassing patients and casualties while also preventing contamination of vehicles and infrastructure. The MedPod can be packed into a compact stowage and includes access ports to allow IV, fluid lines, and patient monitoring systems to be passed in from the outside while it is in use.

- Optional rapid inflation system for inflation in 15 seconds with compressed air
- Contained and confined space for protection against the user and healthcare personnel
- Can be used as patient body recovery bag if required

BODY RECOVERY BAG

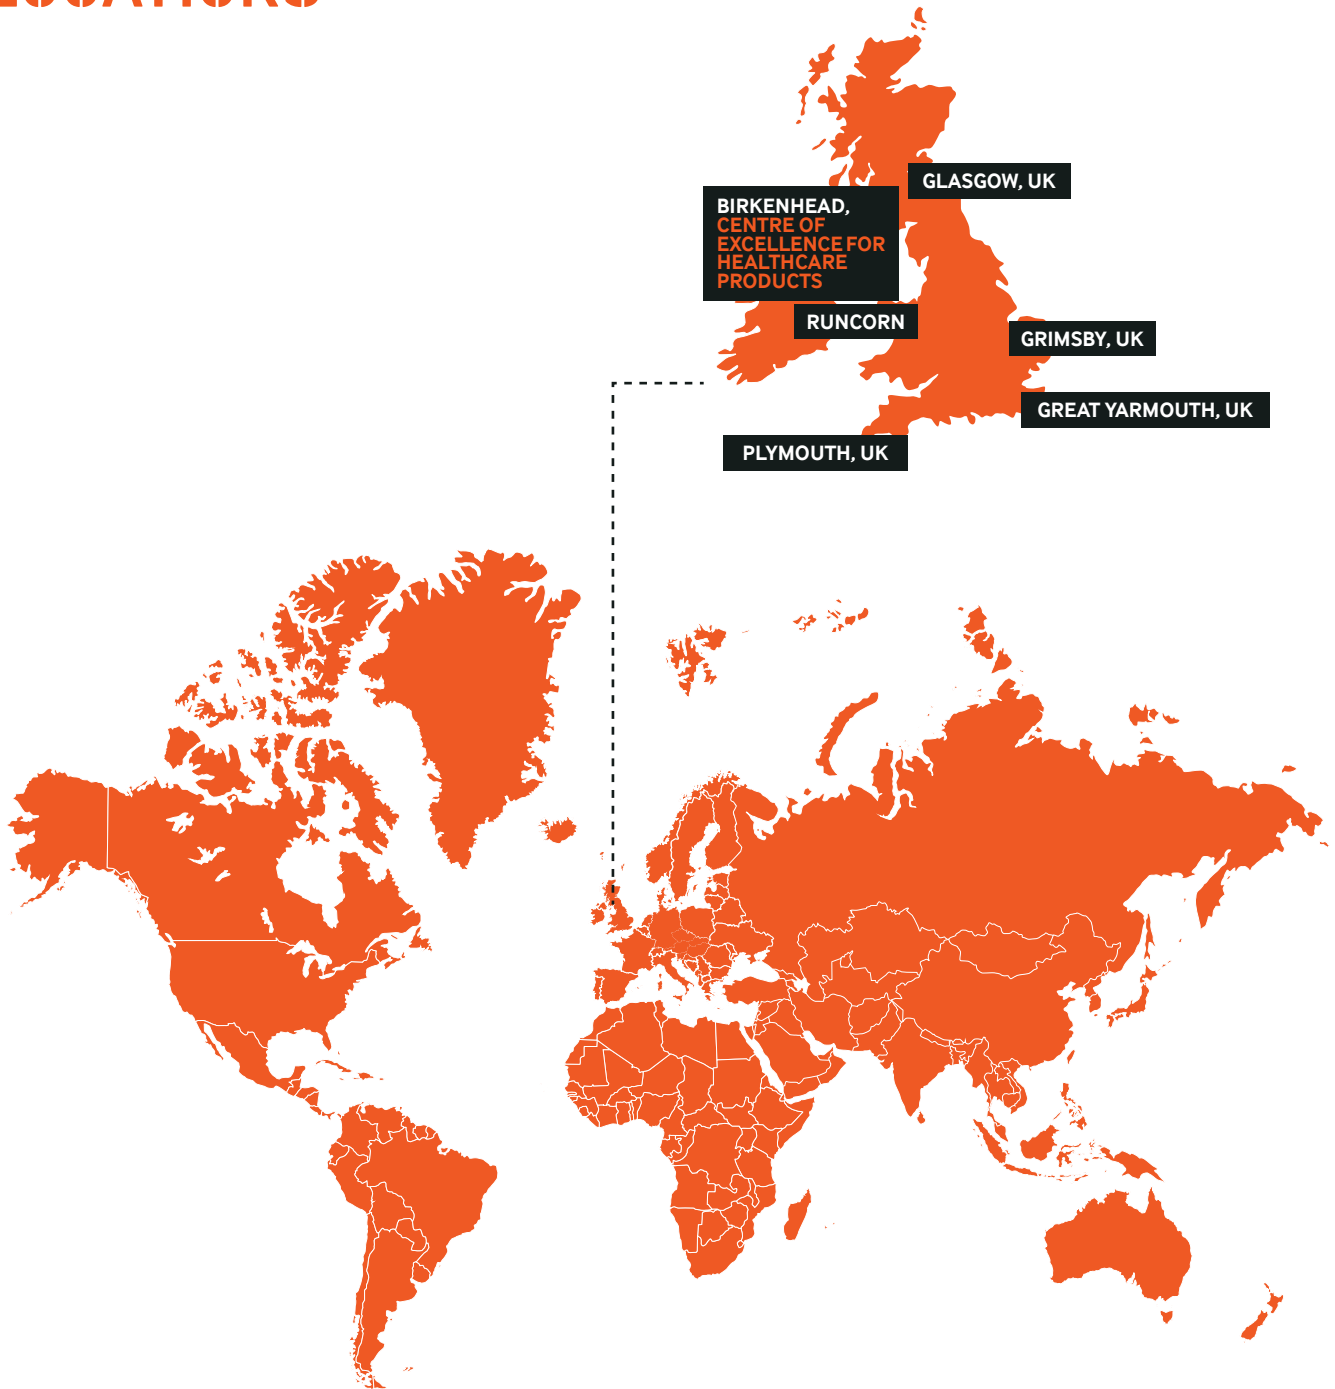

A DURABLE AND PROTECTIVE SOLUTION

The Body Bag has been designed to protect frontline and medical personnel against contamination while safely transporting the deceased. Constructed of a non-toxic Polyethylene Vinyl Acetate (PEVA), the heavy-duty bag is leakproof and has a watertight seal to eliminate contamination of bodily fluids while handling. The construction of the bag makes it highly resistant to tearing and ripping and comes with a three-sided twin ring pull fastener to allow full length access to the bag for easy loading and unloading. The Body Bag also features a clear ID wallet on the front for easy identification and storing documentation.

- Heavy duty construction for durability and reliability
- Safely protects healthcare and frontline personnel against contamination
- Easy identification through the clear ID wallet
- Suitable for protection during viral outbreaks
