ALPHATEC® CHEMICAL SUITS

Dependable defence against dangerous liquids

Ensures crew safety when working with Type 3 and 4 hazards (liquid jets and spray) with good resistance to alkalis, acids, infective agents and spark risks in flammable environments. Made by a world leader to SOLAS and EN standards.

BENEFITS:

- ✓ One suit, many tasks – emergencies, routine maintenance and everyday workwear
- ✓ One suit, many users – thanks to rapid glove and boot change systems
- ✓ One suit, many industries – Fire & Rescue, Industrial, Chemical & Shipping
- ✓ Anti-static material ensures safety in explosive atmospheres
- ✓ Strong, soft, flexible fabric ensures durability and wearer comfort
- ✓ Reinforced knees and elbows maintain long-term suit integrity
- ✓ Reusable and easy to wash

“ Work safely
with full-body
splash protection ”

ALPHATEC® 66-300 (SPLASH 600)

ALPHATEC® CHEMICAL SUITS

WHY ALPHATEC®? (PREVIOUSLY TRELLECHEM)

Survitec have carefully selected the best gas-tight chemical suits from AlphaTec – a brand backed by over a century of leadership in polymer materials. All suits are tested and certified to the toughest standards in the world.

APPROVALS & ACCREDITATIONS

- ✓ EN 14605:2005 + A1:2009, type 3 (liquid-tight)
- ✓ EN 14126:2003 (infective agent protection)
- ✓ EN 1149-5:2008 (anti-static suit material)

TECHNICAL DATA

ALPHATEC® 66-300 (SPLASH 600)
