

## MK40 FAST JET LIFEJACKET

Compatible with all legacy platforms

**Worn in conjunction with the Mk10 Skeletal Anti-g suit**, the MK40 Life Preserver is designed to carry safety and survival aids during flight and post ejection. It also has a flotation device for in-water ejection. The main component of the MK40 is a survival waistcoat.

### BENEFITS:

- ✓ Flame retardant Aramid material - for additional protection in emergency situations
- ✓ 225 NB Life Preserver Unit – Yellow in colour for maximum visibility
- ✓ Lifting becket facility – for emergency recovery purposes
- ✓ Lightweight design – for maximum comfort and manoeuvrability
- ✓ Modular Pockets – customised to individual requirements
- ✓ Low maintenance design – for greater through life performance

**“ Protecting your most valuable asset ”**

TRUSTED TO  
PROTECT LIVES
