

HELIRRAFT AVIATION LIFERAFT

Mission validated life support

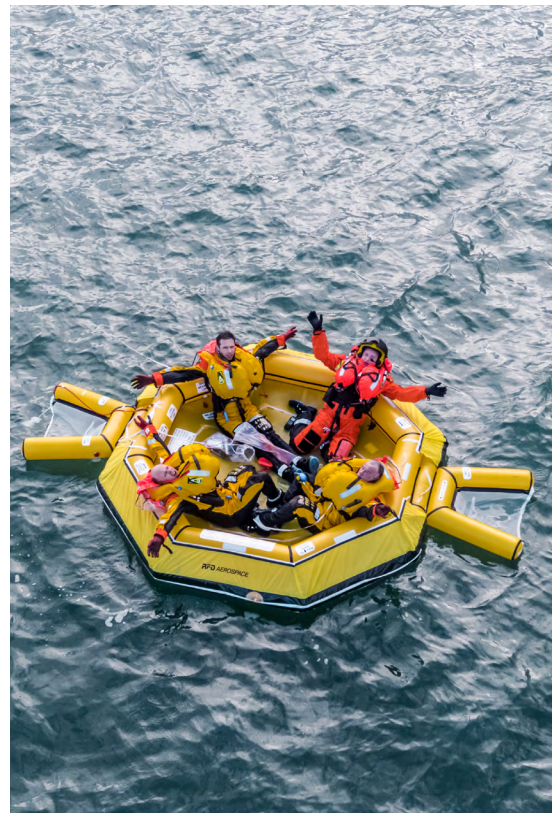

Expertly designed for protecting your passengers and crew, our RFD Heliraft liferafts emphasise reducing weight, allowing you to carry more fuel, passengers, and cargo. Configured for carriage on any Rotary wing aircraft.

BENEFITS:

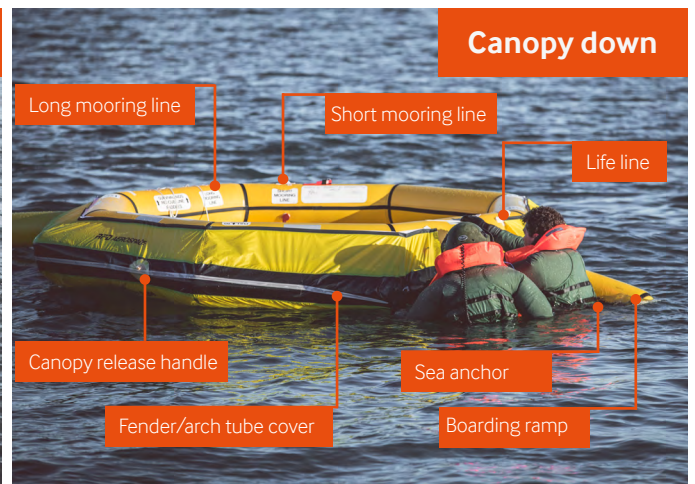

- ✓ Rapid Inflation time, meaning it is fully operational and boardable in 60 seconds
- ✓ Uniquely designed full reversibility, ensuring the raft is always the right way up
- ✓ Improved entry with inflatable reversible boarding ramp allowing optimal access from the water
- ✓ Internal and external stowages customised to suit JAR OPS 3 helicopter compliance
- ✓ Open platform design dramatically improves the boarding and rescue phase
- ✓ Reliable operation and performance in all temperatures with optimised performance to weight ratio
- ✓ Accessible emergency packs included providing essential survival aids

“ **High survivability due to effective design** ”
