MK44 CREW LIFEJACKET

Helicopter and fixed wing

Designed for use by helicopter crews, the MK44 is equally suitable for use in fixed-wing aircraft. With a fully adjustable waistcoat and available with either a single-chamber or a twin-chamber inflatable stole, the lifejacket can be easily contained within a protective pouch.

BENEFITS:

- ✓ Flame retardant material for additional protection in emergency situations
- ✓ Mesh back reducing heat discomfort and fatigue
- ✓ Available in single or double chamber providing flexibility to suit your crews scenario
- ✓ Lightweight designs allows maximum manoeuvrability and comfort

“ **For maximum crew safety and protection** ”
