

# ASSAULT TROOP LIFEJACKET

Designed for Marine combat

**Amphibious, compact, robust and lightweight**, the Assault Troop Lifejacket is your marine combat ally. Purposefully designed with high buoyancy (350N) for high-stake landing duties and easy to ditch with its quick-release pin, it comes in covert green, fully compatible with the diverse equipment configuration heavy weapons teams demand.

## BENEFITS:

- ✓ When inflated, supports the wearer carrying full operation loads
- ✓ Bulk-free, lightweight design compatible with the physical exertion of landing duties
- ✓ Camouflage-ready in covert sage to prevent detection
- ✓ Quick release pin for rapid "on the move" doffing
- ✓ Robust, reliable cover
- ✓ Corrosion-free plastic studs
- ✓ Covert patches on the bladder to disguise light and reflective patches where required

“ **A robust solution if you’re working with heavy operational equipment** ”

TRUSTED TO  
PROTECT LIVES

# GENERAL SERVICE LIFEJACKET

## TECHNICAL DATA

### GENERAL SERVICE LIFEJACKET

Weight	1.9kg (4.2lb)
Total buoyancy	36kg (80lbs) approx
Cylinder	Nitrogen, 300ml
Disposable gas charge	65 nominal
Operating range	-30°C to +40°C
Part number	A338100A00
NSN	4220-99-727-9128

Efficient sprayhood with large transparent visor fitted to the pillow section, deployed easily and rapidly on demand

Robust high volume welded stole, constructed from synthetic materials to suit all terrains

Inflated by Nitrogen Cylinder (Co2 Cylinder optional)

Self-righting when fully inflated

Operating range of -30°C to +40°C

Peel-back Marine grade reflective panels for optimum visibility

Buoyancy in excess of 360 newtons
