# LIFE ARK

Trusted technology, enhanced safety

**Improve your passenger experience** with our helical slide technology. Trusted by global cruise operators for over 20 years and now available for Ropax ferries and small cruise ships. Flexible solutions for all vessels, maximise your cost efficiencies with extended service options.

## BENEFITS:

- ✓ Helical slide ensures descent is safe, rapid, and intuitive
- ✓ No restrictions and safe for all ages, sizes, and abilities with room to assist injured passengers
- ✓ Single or double helical slide options available to meet your passenger capacity
- ✓ Available in a variety of SOLAS and non-SOLAS approved liferaft options to suit your needs
- ✓ Flexible design allows for installation on a wide range of configurations
- ✓ Reduced crew actions, rapid and hassle-free deployment
- ✓ Service support available on your regular trading routes through our global network

**“ Partner with us for a through  
life, fully managed  
MES solution ”**

TRUSTED TO  
PROTECT LIVES
