

## LIFEBOAT FPD FALL PREVENTION DEVICE

Extra protection for your crew

**Designed to prevent accidents** caused by the failure of on-load lifeboat release hooks, this essential piece of safety equipment provides you and your crew with a second line of safety while lowering or raising lifeboats.

### BENEFITS:

---

- ✓ Manufactured from ultra-high molecular weight polyethylene (UHMWPE) rope which is incredibly strong and ideal for marine environments
- ✓ Lightweight and easy for your crew to handle
- ✓ Offers excellent resistance to UV and chemical damage to improve durability
- ✓ Supplied with an instruction manual and clear safety warning tag
- ✓ Can be retrofitted to all existing release and retrieval systems
- ✓ Supplied with a Lloyd's Register Certificate as standard
- ✓ Clearly marked with the first in-service date for easier inspection

“ **Fully compliant with the  
MSC.1/Circ 1327 guidelines** ”

TRUSTED TO  
PROTECT LIVES
