PORTABLE BINDING MACHINE

For binding fire fighting hose

This hand held binding device combined with our mechanical clamping device provides a complete tool for binding couplings to our fire hose with diameters ranging from 25 mm to 110 mm. A hand crank is supplied for winding the binding wire.

BENEFITS:

- ✓ Strong hand crank
- ✓ Cast construction
- ✓ Hand crank allows you to optimally adapt the Clamping arrangement to the coupling size
- ✓ The clamping device can be easily fixed to any standard vice in a vessel's workshop with a jaw of a least 75 mm

“ **Made from a cast frame
with a strip brake** ”
